

SOCKSPRINTER

- ✓ Direct Print
- ✓ Easy Usage
- ✓ Eco-friendly

360°
Degree Hosiery
digital printing

Product Feature

1. Achieve direct printing on socks

Different from heat transfer printing, easier process, save time, save labor, direct to socks printing, make sure the ink is well absorbed into the yarn, not just stay in the surface

2. The printed pattern is without any voids, white line
360 degree printing, no visual break in the printed artwork

3. Adopt Epson high resolution printhead
Deliver extraordinary performance and details, perfectly present gradient effect

4. Solid machine body
Solid machine body decreases the shaking during printing to make sure the printing quality

5. printhead height adjustable
Adjust printhead height according to the different socks thickness
